

HTML / CSS Lab

Objective

- Leverage knowledge of layout and floats to recreate Relaxr's blog

Agenda

- Lab Prework: Relaxr Blog - Planning
- Lab: Relaxr Blog

Lab Pre-work: Relaxr Blog - Planning (cont'd)

- Pair up and do the following (15 mins):
 - Draw a rough outline of your layout plan and break it up into sections
 - Identify what you plan on calling your divs, classes and/or ids

No coding should be done during this process

Lab: Relaxr Blog

- Work together in pairs¹
- Implement your plan and build out Relaxr's blog page
- Focus on creating the layout first
- Adding this to your existing Relaxr project (with the landing page) **is optional**

¹ Each student should maintain their own project files
